Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/2005 has been entered.

Election/Restrictions

2. Claims 27, 35 and 43 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 44-46, directed to the species of additive, is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Allison Johnson on 11/18/05.

The application has been amended as follows:

IN THE CLAIMS

Cancel claim 50.

4. The following is an examiner's statement of reasons for allowance: None of the prior art was found to teach or sufficiently suggest the claimed methods of reducing the quantity of dust generated by a drywall joint compound, comprising the steps of claims 27, 35, 43, 47, 51 or 52, wherein the joint compounds comprised at least water, a binder and a filler, along with other joint compound additives, wherein a dust reducing additive other than water is added to the drywall joint compound as defined by the claims.

Thus, claims 27, 28, 35-49 and 51-53 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
